

Swaffham Town Council

COMMUNITY ENGAGEMENT STRATEGY

Aims and Objectives

Swaffham Town Council is the closest tier of local government to the community. The Town Council wants to work closely with the public, including all residents, community groups and businesses, to encourage participation in decision making. The aim is to secure better services and to create a more active and informed community.

The Community

The Town Council seeks to engage with *all* sections of Swaffham's community including the young, disenfranchised, disaffected, ethnic minority groups and the elderly as well as the local business community, the many clubs, organisations, charities and societies which are active in the town, its partners such as Breckland Council, Norfolk County Council and the safer neighbourhood policing team, the local schools and churches. The Town Council is also committed to engaging with any persons who appear to it to have an interest in matters relating to the economic, social and environmental well being of its area. Icen Partnership is recognised as key partners.

Opportunities for Formal Representations to the Council

Representations to the Town Council will normally be considered at the relevant committee meeting, unless they require the provision of information only, when the Town Clerk or a delegated member of staff will provide it accordingly. There is an opportunity for members of the public to serve on Council Committees, as non-Councillor members. The Town Council has a Complaints Policy for handling complaints, which is available from the Town ~~Hall~~ **Clerk**. The publication of agendas on the Town Council's website and notice board gives residents the opportunity to make representation to the council before agenda items are discussed. All formal representations received are responded to by letter or email. Petitions are often used as a method

for members of the public to draw attention to a particular issue. The Town Council will deal with each Petition on its own merit at the earliest opportunity. As a guide the message must be consistent on each sheet of paper signed only once by members of the public, with their name and address clearly shown. Fictitious names or abusive comments would be rejected.

Involvement in Partnerships

The Town Council is committed to partnership working where it is clear that it will be of benefit to the town or to fulfil its statutory requirements. For example, the Town Council works in partnership with other local councils, i.e. the five Breckland Towns and is represented on various community groups within the town. The Town Council works closely with both Breckland Council and Norfolk County Council to improve service delivery in the town. Iceni Partnership have a role to play, as a key partner with Town Council involvement as appropriate in terms of leading (where appropriate), supporting or advising on projects. There is also an annual Watton and Swaffham Focus Group, which is a collaboration of Watton and Swaffham Town Council's and Wayland and Iceni Partnership's.

Role of Council Members and Officers

Elected members are powerful advocates for their community and their leadership role enables them to have a major input into the consultation and engagement process. They are available to talk to residents during the public session at the start of each Town Council meeting and at the Annual Town Assembly. In a private capacity, councillors belong to many other local clubs, societies and organisations, where they may, if they so wish, promote the work of the Town Council and be available to townsfolk. Specific Areas for Community Involvement

The council will consult the community as appropriate should it resolve to undertake, initiate or facilitate any major projects or additional services in the town. The production of the Town Plan 'Advance Swaffham' and the Neighbourhood Plan are examples where a number of residents became involved in the process of producing a document which will influence how the town develops over a long period of time.
