**Subject:** National Highways' Route Strategies Launch of Online Feedback Tool

Good afternoon,

We are pleased to announce the start of our third round of route strategies, following the launch in June. You can read more about our approach in our publication of ['Vision for Route Strategies – Planning for the future of our roads'](#).

We are keen to undertake a thorough review of how the strategic road network is currently performing and to understand the needs of our strategic partners, road users and local communities, and inform where our network may need potential investment in the future.

We are now beginning the engagement phase to inform the evidence base so we can develop the route strategies and inform the investment plans from 2025. We would therefore value your views and experiences on the performance and needs of the network.

**We would like to invite you to use our online feedback tool which we have created to capture as many views as possible.** The link can be found on our [Route Strategies webpage](#). Our online tool is now open until **30 November 2021**.

Please do get in touch via [routestrategies@highwaysengland.co.uk](mailto:routestrategies@highwaysengland.co.uk) should you have any queries.

Thank you again for your support.

Best wishes,

Ashley Rabot (SE and East Regional Delivery Lead)
