Good afternoon,

I've had a query from our Developer Services department regarding the street lighting approval for Brandon Road – Phase 5 Swans Nest Development (plans attached).

I understand SL 67 was removed from the original drawings following your request to reduce the amount of street lighting on the Phase. Looking through our files, it appears the Town Council previously approved the plans but unfortunately the email did not specify the drawing revisions that were being accepted. Due to the long delay in this matter moving forward I feel it prudent to ask you again if you could confirm that you approve of the designs attached, for our records.

Kind regards

Danny
