Subject: Your letter to Breckland in support of the Abel site

Dear Shirley

I understand that you sent a letter to Breckland in support of the planning application from Abel for a care home/village plus houses. I have checked the planning file but cannot find your letter among the documents clearly it must have been submitted at a late stage. Quite how you managed to "Jump the queue" somehow and have your letter read is not clear especially when others against the proposal were restricted to a mere 3 minutes.

There is concern about this letter for various reasons, perhaps you would care to openly publish your letter in order to avoid the present conversations about it.

Best regards

Graham Edwards.
