

Pest Control Report

Date: March 15, 2021

Swaffham Town Council
Town Hall
4 London St Swaffham
PE37 7DQ

Salesperson	Job
Marc Edwards	Mole Control at Swaffham Recreation Grounds

3 visits were carried out at the Swaffham Recreation Grounds. Moles were removed using a trapping method. On the third visit, a Mole trap was missing from the site. All traps were removed except for one.

All the trapping methods are carried out beneath the ground, with markers above ground to show where the traps are positioned.

With the high number of dog walkers on this site, traps have been dug up by dogs when a mole has been caught in the trapping device. We are aware this happens and now use additional safety trapping methods that will prevent dogs from digging up the traps. As a result, devices can no longer be removed by dogs or members of the public.

We recommend daily checks at the recreational grounds for future mole control works to prevent any issues.

Kind Regards

Marc Edwards
