Dear Richard,

I am writing a letter each day this year (not Sundays) on some aspect of environmental concern for the planet and today's letter is coming to yourself.

I would like to be in touch with whichever Councillor has the brief for the environment/recycling/dealing with litter – if, indeed, there is such a role for one of our elected representatives.

Please would you let me know with whom to be in touch, perhaps it should be the Mayor?

An email reply is fine, email address above.

Many thanks in anticipation,
