Hello Kerry,

I have been passed your details in connection with the erection of a gravestone to my fathers grave in Swaffham cemetery.

It's Sector [REDACTED] Row [REDACTED] number [REDACTED]

We are looking to obtain a small headstone from the attached brochure but Bretts made enquiries and were told that this type couldn't be installed in that area of the cemetery.

However, I have attached photos of stones, similar to the one we would like, which are in the same vicinity (the row behind).

I would be grateful if you could clarify the situation or whether something has changed so that we can decide what stone to purchase, we just want something simple to mark the grave.

Thank you.

*Kind regards,*
