re the current situation of the benches outside the red from breckland.

we have always been fair with the market stalls on a saturday despite every saturday causes us to lose business as were effectively cut out and blocked from the public due to the fish stall.

now on the great initiative from breckland and under the government guidance we have extra benches in town to facilitate the social distancing for encouraging people to come into town.

we have lost much business sofar.

even bunnings were under the impression they would be happy to move to the tuesday site on a saturday so it can help our business.

so were requesting for the foreseeable future to recite bunnings in order to help.

it didnt help the past saturday to also have the ice cream van next to the cheese man which created a bottle neck behind.

i believe this week will be a meeting with breckland and the council in order the progress any problems i would like to have our voice at the meeting

regards

robert
