Subject: RE: footpath warden

Congratulations on what I assume is your appointment by the Town Council.

At one time, I was seeking to build a network of Footpath Wardens and similar across the county, but that has somewhat been overtaken by developments with the Norfolk Local Access Forum. The NLA Forum recently held a Parish Paths Seminar to bring together all those interested in such matters; this one was aimed at areas in North Norfolk, and is to be followed by two further ones, targeted at the remaining areas. We have yet to fix dates and arrangements for these. Would you be willing for your name and email address to be forwarded to my colleague with Norfolk County Council who has been arranging the invitations and (I hope) any subsequent action that is agreed?

Best wishes

Ken

Subject: footpath warden

Hi Ken, David, Richard and Claire,
I would like to introduce Larrie Wright, a Swaffham resident who spends a lot of time walking the paths around Swaffham and would like to become our footpath warden responsible for reporting issues and checking the routes. He would provide a further service alongside David's work as our research officer.

Larrie's email is chainwrightlarrie@outlook.com.
