Dear Swaffham,

You have received the following message from [REDACTED]

Dear Sir/ Madame Vehicle speed along Lynn road Swaffham, We live at 29 Lynn road and have noticed the speed of some traffic travelling along the road to be well in excess of the 30mph limit. This happens at all times of the day and night, in both directions. How do I go about inquiring about getting a speed camera positioned along this road ? Also cars turning both left and right into the one way road that is Shouldham from Whitsands road are driving around a blind bend at excessive speed. Only this evening whilst out walking my two dogs I was almost hit by a motorist going too fast around this corner. How do I go about trying to get tarmac speed humps or similar layed down? I really do believe it will only be a matter of time before a pedestrian is hit by a vehicle at this junction,as it is quite a busy thoroughfare for cyclists,walkers and children all heading to the bridal path at the South West end of the lane. Yours [REDACTED]
