

RESOURCES

NPTS maintains a library of template documents and topic briefings that can be downloaded and adapted or used as required by subscribing councils. Please contact us if you would like any specific advice or guidance on whether, when and how to make best use of them.

Subscribers can gain access by clicking on Secure Log In and entering the email address and password that you originally used to sign up with. In the Box window below, to the left you will see a view of the available folders and files. Click on a folder to open it. Click on a file to preview it, or on the three dots to choose to download it for your use. You can also search across the library by clicking on the search icon. If you are using a tablet you might not be able to access Box in this way so try direct access from your internet browser or download the Box app.
