I have served my country in combat with Honor and distinction, and it is my wish to do the same for the people of Swaffham Town, as a green and historic places supporter. it is my hope and wish we can preserve and conserve the areas that Swaffham has to offer, as you may know i am already the Swaffham path warden, with myself and a few helpers (friends) helping to keep our paths not only cleared but to remain open. i would like to see Swaffham grow as a community, we cannot escape the advance of both housing and technology, but at the same time we also need infrastructure to cope, then of course balancing all of that with nature.

I am a community server, helping as and where i can, i believe that with my background , i have a huge amount to offer, i hope with your help to be able to serve the community with the same enthusiasm and dedication i gave my country, thank you for your consideration.
yours Larrie.
